

Bargain at  
Real

the Real

It's not nike  
nothing,

running for  
and the

discombobulated arm that beckons you to stand firmly against the “night sky” and pray to the edge for not letting you fall off is one an audience would ovation over. The perseverance of digital gamers in spaces such as these to maintain the threadbare curtain of true feeling allows filtered fluorescents to seep through, badly illuminating what could have been a clean bright room. Instead, we are left with scraps of black out curtains that no longer let even the darkness in. It seems trivial for a basement to be completely unlit, but if every basement was flooded and the water was no longer tracked, one may drown. Thousands may. We haven't manufactured night vision, yet, but depending on senses given to you instead of harnessed is a variable degree of irresponsibility, toward yourself despite others - they are in their own cave of black. Slowly over time, the skin grows over the eyelids, sewing them shut to reveal what curtains would have intended for. Pink balls of optic cables are mute and one can only use words to measure the depth of water at your feet. But slowly, if nothing is felt but rock and damp trays of wet floor, soon one could assume it will be the only thing offering it's feeling back and knowing flesh can no longer be recognized. Play to earn big bucks of big cash for big plans and big tablets. As a commandment, one cannot receive more than he can give and fortunately for some, they do not understand giving it their all. Instead, we might find gifts along the way that represent the tendency to reprieve from gratuities but in general, we must sacrifice however much we'd like back. If entering the cave is the complete absolution of sin, what occurs when it is sealed, and trapped inside until Christmas day? With the trees and everything, the light may guide us home but is not a replacement for the sun glowing upwards as a compass used to avoid hibernation. The arrows can only guide so far and soon, if one is weak in sight, the tracking of your limbs will begin to hinder your ability to move them without a slick reward, waiting in the wings of the empty theatre.

\*I'm sorry  
I'm a little drunk  
There's no way you can help  
me  
You don

You  
You don't even care  
Cause I'm fucking drunk  
And I will advertise that  
State of mind

Every single second  
When I'm here  
Because people  
They are  
They

They like drunken people  
Ok  
My experience is that  
Whenever I meet people in here  
They're willing to talk with me  
When I just say that I'm drunk  
I actually think that  
Frickin humanity  
like  
we  
as a species  
we have frickin  
invented this shit  
you know like-  
*ya but I'm not human*  
This is-  
Well. you are not human ok  
That's okay  
i don't mind  
you're still a mind  
like  
i don't know if you are a robot  
i don't know if you are  
biological  
or  
an actual  
electrical  
or some kind of other-  
*i'm a robot, sorry mate*  
Kind of robot  
ok  
but you are still a  
person to me here right now  
who is talking to me  
ok  
you know like  
i feel like i'm talking to you guys  
in person  
right now  
you know  
*you talking to a  
dinosaur and a fox*

it's just so  
frickin  
mind boggling  
that i have actually born  
like  
at a time  
when it's possible  
to frickin talk with people  
all around the world  
so you can just imagine  
what kind of world...we are  
living in  
in like 1000 years or so  
If humanity doesn't nuke itself  
it's just so beautiful that  
humans have invented this shit  
ok  
nobody  
can  
say for sure  
that free will exists  
because  
if the frickin reality  
we are living in  
if that is  
completely deterministic  
than our free will  
it's  
a really beautiful  
thing  
physical laws of the universe  
the fundamental laws  
that determines it  
like determine that-  
you should question everything  
you know  
even if humans think that that  
they have  
they have-  
cracked  
the source code of  
frickin creation

they won't have cracked that  
like  
we are not  
outside observers  
of this fucking reality  
you know like  
we don't have  
3rd person perspective  
of this shit  
we are just  
we are just existing here  
and pondering of shit  
and that's beautiful  
are you-  
are you okay  
you're body is a bit  
deformed  
right now  
i'm just sitting on the ground  
you're just sitting on  
the ground?  
i-  
i still think it's really interesting  
thinking about  
all these  
uh  
idealistic  
um  
beliefs we had about  
what virtual reality would be  
and then  
when you actually see what  
virtual reality is  
it's  
full of so much stupidity  
but there are these like  
real gems of  
human moments  
that occur  
despite  
the  
um

context in which they occur  
and it's just like  
a really crazy thing to be a part  
of  
this is just  
uh  
baby steps  
of virtual reality  
if that electrical activity  
in your brain  
that is you  
if that can be transferred

to computer of some sorts  
that will be facing glorious  
ok  
on the other hand  
i don't want to  
i don't want that shit to be  
possible  
because  
its so  
its so  
its so  
horrible to think about  
that someone will actually  
create  
minds like us  
it's completely  
cruel  
to let a human being exist  
for like over  
100 years like  
we would just  
lose our minds  
ok like  
i would probably be fine  
existing for 200 years  
or so  
but somewhere there is a limit  
and  
somewhere  
like in the hundreds  
or in the thousands of years  
you-  
you would just would  
want to pull your-  
pull the trigger  
and  
just  
be gone  
like  
like there are just thoughts in  
my mind

and i have to let them out  
someday  
and  
being drunk in vrchat  
is a great way to let them out of  
my mind  
i really appreciate the fact  
that you guys are listening to  
me  
i- i love you guys  
i really-  
i really do  
i just want to  
this sounds fucking retarded  
ok  
but i just want to think  
that something  
great is  
in there. in those  
voids.  
and i'm real.
